Shivam Ijardar

Certified Data Engineer | Azure Databricks, PySpark, Synapse Expert | Experience in Microsoft Fabric & Qlik Replicate

Raipur, India 492004

+917000014489

shivamijardar@gmail.com

Certified Data Engineer with over 2 years of experience in building scalable data pipelines using Azure Databricks, Synapse, and PySpark. Specialized in Qlik Replicate and Microsoft Fabric, with a focus on delivering real-time data solutions for enterprise-level analytics. Holding Microsoft Data Engineer (DP-203) and Fabric certifications (DP-600), I aim to optimize data workflows and improve business decision-making through efficient data engineering practices.

Work History

2022-12 - Current

Software Analyst

Amicus Technology Pvt Ltd, Raipur

- **Azure Databricks**: Developed PySpark and SQL notebooks in Azure Databricks for data transformation and analysis. Managed Delta Tables with Unity Catalog, Hive Metastore, and GitHub for version control and governance. Automated data pipelines using Databricks job scheduling and implemented Spark's parallel processing for scalability and efficiency in distributed data processing. Integrated with Azure Data Lake and SQL Databases.
- **Azure Synapse Analytics**: Developed data pipelines in Azure Synapse Analytics, integrating data from on-premise sources, file systems, cloud services, websites, and APIs. Utilized various linked services and Integration Runtime. Leveraged dedicated SQL pools and data warehousing features for efficient data storage and querying, enhancing performance and scalability in analytics.
- **Microsoft Fabric**: Designed and developed a proof of concept for data management using Microsoft Fabric, enabling seamless data integration between Azure services and improving data access for business intelligence teams.
- **Azure Storage Account**: Designed scalable data pipelines using Azure Storage Account, with Blob Storage and ADLS Gen2 for efficient data storage and management. Expertise in handling unstructured and structured data, integrating with Azure Data Factory for automated data ingestion and transformation. Implemented secure data access via shared access signatures (SAS) and role-based access control (RBAC).
- **Qlik Replicate**: Led a Qlik Replicate integration, ensuring 99.9% data synchronization accuracy across databases.

- Optimized data processing by implementing efficient ETL pipelines and streamlining database design which reduced data processing time by 30%.
- Collaborated on ETL (Extract, Transform, Load) tasks, maintaining data integrity and verifying pipeline stability.

Skills

Data Engineering Tools:	Azure Databricks, Azure Synapse Analytics, Azure Data Factory, Microsoft Fabric, Qlik Replicate, PySpark, Databricks Delta tables.
Programming & Scripting:	Python (Pandas, PySpark), SQL, JavaScript, HTML/CSS
ETL & Testing:	Informatica IDQ, iCEDQ ETL Testing, Azure Key Vault (for security), Azure Active Directory

Education

2011 - 2015

Bachelor of Engineering: Electronics and Telecommunication Engineering

Bhilai Institute of Technology - Durg, India

Certifications

2023-10	Microsoft Data Engineer Associate, DP-203
2023-05	Microsoft Azure Fundamental, AZ-900
2024-10	Microsoft Fabric Analytics Engineer Associate, DP-600
